

Jenkins Is New President

Spring Semester To Introduce 8 A.M. Classes

Eight o'clock classes will be introduced in the spring semester to provide one class-hour more per day than the present schedule allows, Dean E. M. Potter said.

The new class day will be from 8 a.m. until 4:56 p.m. The present class day is from 8:25 a.m. until 4:24 p.m.

Dr. Potter gave the reason for the change in time as the "growth of the student body and the need of additional classroom space."

Eight o'clock classes on Mondays, Wednesdays and Fridays will be for over-crowded sections, he said.

Only one class of men's physical education will be scheduled on Tuesdays and Thursdays.

No students who ride school buses will be scheduled for early morning classes, according to Dr. Potter, since buses will not run any earlier.

"There are enough students who live in Tyler to fill the first period classes without drawing on bus students," Dr. Potter said.

Registration Set For Jan. 21-23

By LORETTA McGEHEE

Students who registered for the first time in the fall are due for a complete surprise when they line up for registration Jan. 21, 22 and 23.

ter within a three-day period for the spring semester, whereas all registration was scattered over approximately two months.

Many students come as early as 7 a.m. to get ahead of the crowd. They receive numbers in order of their arrivals and wait in line until they are admitted to the library entrance, a few at the time, to fill out the usual multiplicity of forms.

Registration will take a good part of the day, even for those who arrive at 7 o'clock.

Students are then assigned to members of the faculty, according to majors for counseling.

2.5 GRADE AVERAGE REQUIRED

8 Become Phi Theta's

Eight students have been invited to become pledges to Phi Theta Kappa, honorary scholastic society for junior colleges, according to Floyd Stoddard, faculty sponsor.

Pledges are Myra Lee Boone, Cleveland H. Gilley, Carolyn McWilliams and Ann Williams, Tyler; Donnadell Cox, Van; Bernard Lukenbill, Lindale; Jimmy Hodge, Canton, and Franklin McCauley, Troup. They became eligible on the basis of their scholastic records of last spring.

Members voted the pledges in after their names had been placed on the eligible list by Stoddard, said Jimmy Luce, organization president.

"Although we have no plans at present, we will probably have a formal initiation," said Luce.

Members must have a minimum of 2.5 grade points for eligibility into the honor organization. Grade points are figured on this basis:

An "A" is three grade points per semester hour, a "B" two, and a "C" one grade point per semester hour. Ratings are figured on the entire college record up to the time of election.

To be eligible for membership a student must have completed a minimum of one semester's work at TJC. A freshman must be carrying 15 hours and a sophomore, a minimum of 12 hours.

Character and citizenship are also considered in membership acceptance. Each student scholastically eligible must meet the approval of society members and faculty.

Another group who meet or-

PRESIDENT H. E. JENKINS

Annual Christmas Dance Will Be Saturday Night

By SUE WELDON

the theme of this year's traditional blue and silver all-college Christmas dance Saturday night.

The semi-formal dance, sponsored by Tokalon and open only to college students and their dates, will be held in the Tom Tom Room from 8 p.m. until midnight, Shirley Radford, president, announced.

Glittering snowflakes will hang from the rafters, and the entire room will be decorated with pine boughs and snow.

The Christmas Queen with her escort and all her court will be presented during the floor show.

Members.

The five TJC beauties, who were selected Thursday night, will also be presented during the floor show. These five were chosen from the 19 beauty candidates.

The Queen's court will include princesses and their escorts sent from the high schools in this area. Written invitations were mailed to schools last week.

The decorations committee is considering the idea of having each couple bring a gift-wrapped toy to be placed under the decorated tree. The toys will later be turned over to an organization.

The orchestra has not been announced.

The decorations committee consists of Diane Jones, Myra Lee Boone, Darla Defoor, Barbara Frizzell, Martha Akers, Jo Ann Davis, Ann Huey, Louise Gray, Nancy Pettit, Ann Williams, Becky Echols and Sue Weldon.

organization requirements will be invited to become members after fall semester grades are compiled.

TJC Is 1st Jr. College To Provide Executive Of Southern Assn.

The first junior college president ever to become president of the Southern Association of Colleges and Universities was elected last week. The president-elect is Dr. H. E. Jenkins of Tyler Junior College.

Announcement of his election came from the 63rd annual convention of the Southern Association held in Louisville, Ky., last week. He will succeed Dr. Rufus C. Harris, president of Tulane University.

Dean E. M. Potter said his election was "one of the biggest things that has ever happened to TJC. Not only is it a matter of honor and prestige for the college, it is a historic event in the Southern Association."

TJC has been a member of the Southern Association since 1937.

The Southern Association sets the standards for all colleges, universities, secondary schools, and school systems, whether private, state, or church supported, in the 11-member states.

Dr. Jenkins has been prominent in both state and national education for sometime. He is the immediate past president of the Association of Texas Colleges, thus TJC is also the only junior college ever to have its president elected in both associations.

Sale Of Directories Begins Next Week

The 1958-59 student directories, co-sponsored by the Apache Belles and band, will go on sale the first of the week according to Eddie Fowler, band director.

Cost per directory is to be 25 cents, he said. Purchases may be made by "all faculty members and day students will be included in the directory," Fowler said.

Apache Sales Reopen For Last Time Today

Apache yearbook sales will be re-opened today through tomorrow afternoon at 3:30, according to Mrs. Averille Greenhaw, faculty sponsor.

Mrs. Greenhaw said that though sales have been announced as final before, this will be the last chance for students to purchase one of the 1959 Apaches unless they can contact some staff member who has not turned in his money and account book by Friday.

Staff members will be in the Tom Tom Room of the Teepee and in the downstairs corridor of the main building to sell copies, she said.

Dr. Jenkins has served over 20 years as a member of the standards committee of the Texas Association and over 12 years on a similar committee of the Southern Association.

Positions Dr. Jenkins has held in the Southern Association prior to his presidency include chairmanship of the Accreditation Committee for Junior Colleges and his current membership on the Executive division accredits and hears reports from colleges and universities in the South.

He is an Executive Committee member of the National Accreditation Commission and of the National Vocational Rehabilitation and Education Advisory Committee.

In 1956, he was appointed by President Eisenhower to the Steering Committee of the Southern Regional Conference of the President's Committee on Education Beyond the High School.

The Southern Association was established in 1895 in Atlanta, Ga., with six charter members: Vanderbilt University, University of North Carolina, Duke University, University of Mississippi, Washington & Lee University and the University of the South, Sewanee, Tenn.

Over 3000 colleges, universities, and secondary schools in 11 southern states now belong to the Southern Association.

'SING IT LIKE THIS'—John Hunter, choir director, coaches three principals who will appear in the Christmas opera "Amahl and the Night Visitors" the night of Dec. 18 in Wise Auditorium. Members of the costumed trio are left to right, Tenor Ronnie Palmer, sophomore in the School of Music; John Bass, basse and former TJC music student who

now attends Southern Methodist University, and Baritone Fred Watkins, another TJC sophomore. The singers are cast as the "Three Kings" in the opera by Gion-Carlo Menotti. The Opera is co-sponsored by Tyler Junior College and the East Texas Symphony Orchestra.

Students Will Have 40 Additional Courses Next Semester

Forty additional courses will be added to the day schedule according to Dr. E. M. Potter, dean.

The additional courses are customarily a part of the spring schedule:

Bible 123—A study of all books of the New Testament as to author, message, and relation to the entire Bible. James Fife, director of the Church of Christ Bible Chair; the Reverend Arthur Pry, Methodist Bible Chair; and the Reverend Leo Rudd, Baptist Bible Chair, instructors.

Bible 223—A study of the Life and Teachings of Paul and their part in the early spread of Christianity. Rudd and Pry, instructors.

Wildlife Management—A course designed to acquaint the student with wildlife resources of the United States with special references to Texas.

Fundamentals Of Crop Production—Classification and distribution of farm crops; importance of good varieties and good seed; crop improvement; preparation of the seed bed; commercial fertilizers; seed practices; crop tillage; harvesting; meadow and pasture management; weeds; crop rotation; diseases and insect enemies.

Business School: Secretarial Accounting—A study of the fundamentals of double-entry bookkeeping and its direct application to various businesses.

Cost Accounting—Accounting for various elements of cost, including organization and procedures involved in recording and assembling data involving labor, material and burden and the various systems.

Also offered in the business

school will be Business Correspondence and Advanced Short-hand.

Advanced Electronics—Electronics in metals and in semi-conductors; thermionic, photoelectric and field emission of electrons; applications of vacuum tubes and transistors to feedback amplifiers; frequency-selective amplifiers and special electronic instruments; ultra-high frequency electronics; magnetic amplifiers.

Physics 224—A course designed to meet the second year physics requirements of students in engineering, medicine, and other science fields; electricity, magnetism, wave-motion, acoustics and optics.

Engineering Physics 224A—A study of mechanics and heat for Freshmen Engineers.

Applied Mechanics, Statics—For sophomore students of engineering and architecture, and others who are required to have a comprehensive course in the analysis of forces on structures and machines, the resultants and equilibrium of force systems, friction, and similar engineering problems.

Descriptive Geometry—Principles of descriptive geometry and their applications to problems of engineering and architecture.

Mechanical Drawing 126—Domestic architectural drawing, architectural lettering, conventional symbols. Designed for professional draftsmen.

Machine Drawing 226—A continuation of drafting 216 with emphasis on isometric drawing, isometric projection, oblique drawing, oblique projection, cabinet drawing, machine fasten-

ing, screw threads, bolts and nuts.

Plane Surveying 216—Plane-table and transit methods for topographic map production; field problems related to highway surveying; circular and vertical curves; earthwork, volumes and cost estimates; triangulation and base lines.

Advanced Surveying 233—Outlining reconnaissance, preliminary, and location of route surveys; computing and staking out simple and compound curves; cross-sectioning; earthwork computations, mass curves; drainage areas; topographic mapping; profiles; calculation of quantities for engineering.

Calculus 213—Differentiation and integration involving transcendental functions; approximate integration; indeterminate forms.

Mathematics Of Finance—Short cut methods, simple and compound interest, equations of value, annuities, amortization and sinking funds, depreciation, bonds. Prerequisite: College Algebra.

Geology 124—Historical Geology; the history of the earth through geologic times as revealed by rocks and fossils; the origin and development of plant and animal life. Laboratory work in paleontology.

Paleontology—Invertebrate, phyla; sponges, coelenterate, echinodermata, brachiopods, mollusks, and stratigraphic and evolutionary paleontology. Prerequisite: Geology 114-124.

Petrology—Introductory course in the study of rocks including origin, mode of occurrence, and determination of common types of igneous, sedimentary, and metamorphic rocks. Laboratory work

in study of rock specimens. Prerequisite: Geology 213.

Botany Of Seed Plants—A study of the seed plant in relation to life processes and life history.

Principles of Sociology 213—A study of society; the community and its structure; the ecological approach to human relationship; elements and processes of social interaction; social change; society and the person. Prerequisite: sophomore standing.

Modern European History 123A—A survey course in cultural and institutional development of the nations of western Europe from the nineteenth century to the present time.

Government 223—A study of national and state governments.

Education 123, Introduction To Education—A brief survey of the general field of education brought out through a study of the evolution of the present-day public school and its practices.

Education 223—Child Growth and Development—Methods of teaching in the elementary grades. Further consideration given to selection of subject matter and organization of lesson plans. Students observe classwork in local schools.

English 223, Technical Report Writing—Techniques of verbal efficiency in the various media of engineering and scientific communication.

English 123A—A special course for second semester freshmen who prefer a little less reading and more of the principles of writing. All journalism majors and second semester freshmen who have a B average in English are eligible.

Modern English Literature will also be offered.

Speech 123A—Second voice and diction course with emphasis on basic principles of acting.

Art 123—Second course in basic art; fundamentals of color and drawing in design.

General Survey of French Literature—A brief study of political history serves as background, classics of each period read in class, and outside readings assigned. Prerequisite: French 124.

Spanish 213—A survey of the literature of Spain. As a basis for the comprehension of the literature, a survey of Spanish history, both political and literary, from earliest origin to present decade. Prerequisite: Spanish 124.

Elementary Clothing 123B—The study of textile fabrics; fundamentals of selection and construction of clothing. Use and alteration of commercial patterns.

Nutrition 123C—Fundamental principles of human nutrition applied to the individual, family, and community nutrition problems.

Physical Education 123A—Theory of Basketball and Baseball.

Other courses will include Anatomy and Physiology (second course) and Petroleum Technology.

Evans Addresses Journalism Class

Radio is only one of a series of news media, each of which have their own distinctive functions, Walter Evans, news director at KTBB, told the Journalism 113 class.

In his speech Dec. 2, Evans emphasized the correlation between the four great news media; television, radio, newspapers, and news magazines.

"We are not in actual competition with any of these media," Evans said.

"Each of us has our own function, and each function is equally important to our intricate civilization."

Radio can reach the scene of an accident or news event far more rapidly than any other media, Evans said.

Television is usually second with the news, with pictures filmed at the scene.

The newspapers and news magazines follow with details and further interpretation. They have the time to do additional research into the side issues of a question.

Radio has a use in public service as well, Evans continued. He cited the case of the "Deathless Weekend" campaign, where several radio stations stayed on the air all during the labor day holidays urging the drivers to use caution.

"If someone is missing, the police stations will often notify us, and we broadcast the fact over the air."

Further proof of radio's effectiveness was shown when a man was seriously injured and needed blood badly. The Stewart Blood Bank was out of his type blood, and the various radio stations broadcast an appeal for a donor. Within hours the Bank had a sufficient supply.

The radio has educational uses as well, Evans pointed out. Lectures, speeches, and interviews of prominent persons can be presented very effectively over the air.

In case of atomic attack, every radio station will go off the air, except for certain designated stations. These stations will broadcast emergency measures and instructions to the people on 640 or 1240 kilocycles.

100 Attend Band Party At Methodist Center

"It was bound to be good—it was so long in coming!" was one band member's comment after the long-planned band party Saturday night.

Approximately 100 persons attended the barbecue-dance held for members and guests at the Marvin Methodist student center.

Jimmy Phipps, band president, was in charge of all arrangements for the party. Members of the food committee were Mona Miller, Kay Callendar, Carolyn McWilliams and George Sipper.

Plans for the all-band party were begun back in September, according to Director Eddie Fowler, but "so many other things have come up in the meantime, we just now were able to set a date aside in our busy schedule."

Garrard Is Only Girl In Her Major Field

By MARY ANN SEAMON

Being the only girl in her major field is both lonely and fun, according to Martha Garrard.

Martha is the only girl at TJC majoring in architectural engineering. "That's just a long way of saying I want to be an architect," she said.

Although she admits thinking she had entered the wrong room the first time she walked into an all-boy class, Martha is becoming accustomed to being the only member of her sex in many of her classes because of her similar experiences at John Tyler High School.

"When I entered Mrs. Mary Jernigan's mechanical drawing class, in Tyler High School she was glad to see me and told me that I helped even things up a little," Martha remembered.

According to the Tyler freshman, being a woman has had one distinct drawback so far. An architect she interviewed for a high school assignment told her he hired persons only after they had worked for a contractor for a few years to gain experience.

This is next to impossible, for a girl, Martha said, because working for a contractor usually includes such on-the-job training as carpentry work.

Looking on the bright side, Martha keeps in mind a magazine article which said many firms prefer women drafters because they are "neater and more exact than men." Drafting is a good opening into architecture, Martha said.

"I first became interested in architecture in the 8th grade; it

was very sudden," Martha said. "Although Dad is not an architect, he is always building something, and I guess it rubbed off on me."

Being an aspiring architect does not take away from Martha's charm as a girl. Although she wears little jewelry, she insists that her clothes be color-coordinated. Blue is her favorite color "right now," and she prefers tailored lines. She is 5'9" and has blonde hair and brown eyes.

Martha is secretary-treasurer of the Engineers' Club. Her subjects are physics, algebra, trigonometry, freshman psychology, English, engineering drawing, and band. She plays the French horn in band.

Rock collecting, stamp collecting, O gauge model railroads, and modern, realistic art are some of Martha's varied hobbies.

"One of my pictures won a blue ribbon in the East Texas Fair exhibit," Martha said. "But before fair officials hung the picture, they had to call me to find out which way was up."

Students Get Books Through Tyler Paper

Journalism students and students who take Introduction to Creative Writing next semester will have an opportunity to build their personal libraries.

The Sunday Tyler Morning Telegraph and Tyler Courier-Times are making possible the

Betts, Spence To Hold Positions In Drafting Assn.

Two Tyler Junior College persons were elected to offices in the Professional Drafting Association of Tyler last week.

Jack Betts, engineering drawing and drafting instructor, is the new president of the association.

Donald Spence, former TJC student from Kaufman, was elected secretary.

Spence graduated in the spring of 1957 after completing the two-year drafting course. He was a former president of the TJC drafting club. At present Spence is a draftsman for the city engineering department.

Spence was a member of the first drafting class at TJC, organized in June of 1955. Betts has been the only drafting instructor here.

The association is open to any active professional draftsman. Betts, although he is no longer an active draftsman, is eligible because he has been a draftsman for both the National Geophysical Company, working out of Dallas, and Lone Star Steel, in Lone Star.

There are approximately 40 active members and a potential of about 125 members, Betts said. Meetings are held once a month.

publication of book reviews on the amusement page of their Sunday edition. Students who do the reviews keep each book they review and will receive personal recognition in the paper.

Student Nurse Entertains With Party

Sara Barton, president of the pre-clinical class at Texas Eastern School of Nursing, entertained the class with a week-end party at her home in Kilgore last Saturday and Sunday.

The girls went picnicking, hiking, horseback riding, and boating at Cherokee Lake.

Sunday the girls attended church together. They returned to Tyler after lunch.

To Save Your Life

How do you tell someone something that may save his life without sounding like you are putting yourself up as a tin god to follow?

Do you say with Christmas holiday traffic ahead, don't make yours a perpetually "Silent Night?"

Do you tell someone he's a potential killer everytime he gets behind the wheel of his car? That he will someday get a free ride back to town if he doesn't stop driving 110 on "straight stretches" of highway?

Someone else seems already to have thought of all the good quotations.

Everybody knows "If you drive, don't drink; if you drink, don't drive." But how many listen?

It really presents a problem.

Common knowledge is so common, people just overlook it. People just smile and wave it aside and say "It couldn't happen to me!"

But it does — everyday it happens to someone who is caught unaware.

Whose fault is it? Yours, mine—whoever is involved. Nobody is willing to take the blame, but someone must take the consequences.

When the slogans have all been heard, then what can one say?

PLEASE DRIVE SAFELY THIS HAPPY NEW YEAR.

—C. McW.

Dean Will Post Schedules

For the second consecutive year, Dean E. M. Potter has promised to post the spring schedule of courses, sections, instructors, and times of classes to be offered on all bulletin boards.

To help students in arranging their courses before they got to the long registration lines, the administration last year began posting the schedules.

Many students profited by the displayed schedules. They chose their courses, instructors, time of class—all before registration.

Instructors profited too. When possible they accepted these student choices.

If unavoidable conflicts arose, such as sections closed before students could register for them, those who had carefully studied the displayed lists knew if there were another solution.

Students who worked part-time found the schedules to their advantages too. These students could see exactly when a section was scheduled and were able to arrange their classes accordingly.

Dean Potter said he expects to have the list of courses posted on the bulletin boards within the next week.

Students who plan their courses by the posted schedule

Boards Can Be Friends

Outside of class and the library, perhaps the best source of information is the bulletin board.

A student will find everything from his final grades for the semester to the courses that will be offered next semester. All campus activities, elections, parties, club meetings, and almost everything of importance is usually posted on the bulletin board. If a student fails to read the many and varied messages on the board he is apt to lose out on quite a few things.

Every student and organization on the campus is invited to make use of the seven public bulletin boards located on the first and second floor of the main building, and in the Teepee.

Some students have already found the bulletin board can be a good friend. For example, if one loses something of value, he can count on a bulletin board to do its part in helping recover the lost article.

The bulletin board also illustrates another way in which college is different from high school. In high school one was told over and over about something. In college he finds out for himself.

Get acquainted with the bulletin board. Make it a point to always go by the board the first thing each Monday morning. T.S.

The TJC Pow Wow

The TJC Pow Wow, official newspaper of Tyler Junior College, is published every other Wednesday, except during holidays and examinations, by the journalism classes.

The views presented are those of the staff and do not necessarily reflect administrative policies of the college. Signed articles are the views of the writer, not necessarily of the Pow Wow staff.

Letters to the editor must be signed, though initials will be used at the writer's request.

Letters

To the Student Body:
Credit where credit is due department—

To the entire student body for making this year at TJC happy memories thus far.

To the student council and the student relations committee for many jobs well done.

To the faculty for their close co-operation and helpful attitude.

To Mrs. Mildred Stringer and James Barnes, our council sponsors. They are for TJC all the way!

To the Pow Wow and their "tell the world" paper staff. Without their publicity nothing would go.

To Irwin Matthews and the Tribesmen for their fine help at ball games. Especially for lighting the flares at the Kilgore game.

To George Sipper and Kappa Sigma Lambda for their great spirit and dependable publicity in connection with our many school activities. The fraternity has gained a fine reputation this year by such things as their great job on the bonfire.

To Betty Campbell and the cheerleaders and a little guy named Jim Baily who really gets things done. Our cheerleaders are the best TJC has ever had.

To the band and Apache Belles and those three personalities who turn the crank—Mrs. Stringer, Alfred Gilliam, and Eddie (Pinky) Fowler.

To Tom Arthur and his efficient ballot committee for their fine job on all the elections.

To Jean Lawhorn, homecoming chairman, and her committee for their excellent work on homecoming. They put on the finest homecoming in TJC history.

To Tyler's daily papers, radio and TV stations—our lifeline to our public.

To our coaches, James (Babe) Hallmark, Floyd Wagstaff, and Herbert Richardson for a job well done.

To Tommy Osborn for his fine work on signs and posters. We appreciate 'em Tom.

And finally to our football team and managers who have set a pace worthy for our whole school to shoot at!

Sincerely,
FREDDIE HEAD,

President of the student body.

LITTLE MAN ON CAMPUS

"I UNDERSTAND THE ONLY EXAMINATION HE EVER PASSED WAS HIS PHYSICAL."

UT Summer School To Be One-Semester Session

Students planning to attend summer school at the University of Texas will find the University has inaugurated a one-semester, 9-weeks session.

The change from the two-semester, 6-weeks sessions has been made so that the semester's work will be more nearly like the long term.

The School of Law will continue on a 12-weeks basis.

The board of trustees at South-

ern Methodist University has approved a \$150 increase per year in tuition, and approved the construction of five new buildings costing approximately \$4,100,000, according to the SMU Campus.

The increase in tuition from \$250 per semester to \$325 per semester was made "to meet rising cost of instruction and to provide more adequate faculty salaries," an administrative spokesman said in the SMU Campus.

Are you willing to forget what you have done for other people, and remember what other people have done for you; to ignore what the world owes you and to think what you owe the world; to put your rights in the background, and your duties in the middle distance, and your chances to do a little more than your duty in the foreground; to see that your fellow-men are just as real as you are, and try to look behind their faces to their hearts hungry for joy; to own that probably the only good reason for your existence is not what you are going to get out of life, but what you are going to give to life; to close your book of complaints against the universe and look around you for a place where you can sow a few seeds of happiness—are you willing to do these things even for a day? Then you can keep Christmas! Are you willing to stoop down and consider the needs and the desires of little children; to remember the weakness and loneliness of people who are growing old; to stop asking whether your friends love you, and ask yourself whether you love them enough to bear in mind the things that others have to bear on their hearts; to try to understand what those who live in the same house with you really want without waiting for them to tell you; to trim your lamp so that it will give more light and less smoke; to carry it in front, so that your shadow will fall behind you; to make a grave for your ugly thoughts and a garden for your kindly feelings with the gate open—are you willing to do these things, even for a day? Then you can keep Christmas! Are you willing to believe that love is the strongest thing in the world—stronger than death—and that the Blessed Life which began in Bethlehem so many years ago is the image and brightness of the Eternal Love?

Then you can keep Christmas. And if one day, why not always?

Henry Van Dyke

BEAUTY LINEUP—Seventeen of the 21 candidates who will compete in tomorrow night's contest to select the most beautiful girl on campus are (left to right) (front row) Anne Gilbert, Golden; Diann Korkmas, Tyler; Rosiland Butler, Mt. Pleasant; Jackie Martin, Troup; Faye Shaw, Quitman; Betty Jane Gilley, Van; Ann Music, Van; and Janet Johnson, Tyler. (back row) Dian Pummer, Tyler; Helen Pratt, Tyler; Ann McFarland, Tyler; Glenda Matthews, Tyler; Velma Jo McClain, Tyler; Susan Sharp, Troup;

Betty Campbell, Tyler; Sylvia Henderson, Rusk; and Brenda Clark, Tyler. Not in the picture are Shirley Radford, Tyler; Linda Bryant, Quitman; Mary Jane Bryant, Hawkins; and Kay Raley, Tyler. The annual contest, sponsored by the Apache yearbook, will also name the four runners-up. A panel of five judges will choose the top five after the girls model tomorrow night in the TomTom room. The contest will start at 7:30 and will be open to the public.

21 Beauty Candidates Compete Tomorrow

Candidates from 21 campus organizations will appear before a panel of five judges Thursday, Dec. 11, in competition for the title of Most Beautiful on Campus.

The contest will be open to the public and will begin at 7:30 p.m. in the Tom Tom Room.

Candidates and their sponsoring organizations are Shirley Radford, Apache Belles; Betty Campbell, Singing Apaches; Glenda Matthews, ToKalon; Rosalind Butler, Tribesmen; Susan Sharp, Kappa Sigma Lambda; Dian Pummer, Texas Eastern School of Nursing.

Linda Bryant, Sigma Sigma; Mary Jane Bryant, Apache Band; Sylvia Henderson, Cheerleaders; Jackie Martin, sophomore class; Anne Gilbert, Phi Theta Kappa; Velma Jo McClain, Atta Kula Kula; Ann Music, Pow Wow staff; Kay Raley, Student Council; Ann McFarland, Freshman class.

Sigmas Hear Talk, Elect 5 Officers

Sigma Sigma elected officers for next semester and heard Johnny Wright of Southland Life Insurance Company at their last meeting.

Kay Rodieck, Tyler freshman, is the new president of the secretarial sorority. She was reporter during the fall semester.

Other new officers are Brenda Clark, vice-president; Martha Akers, secretary; Fran English, reporter; and Kathy Croly, student council representative. Immediate past president was Carolyn Price.

Wright addressed the group on the duties of a secretary. "A good boss expects his secretary to be neat, pleasant, and dressed appropriately," he said. He listed being a loyal worker, knowing how to answer the telephone in the correct way, and getting along with fellow workers as important assets of the secretary.

Speech, Drama Class Handles Production

Handling the production end of the Christmas folk opera, "Amahl and the Night Visitors," are the speech and drama students of Dr. Jeane Browne and Lawrence Birdsong. Dr. Browne is serving as director and Birdsong is technical head.

Production is divided into costume, lights, stage, make-up, and props departments, all manned by different student crews.

Behind the scenes will be stage man, Larry Dorsett, and bookholder, Glenda Odem.

staff; Helen Pratt, the Engineers' Club; Faye Shaw, Student Education Association; and Brenda Clark, Christian Student Foundation.

The annual beauty campaign, naming the most beautiful and the four runners-up is sponsored by the Apache yearbook under the direction of Mrs. Averille Greenhaw.

The girls will model sweaters and skirts and then evening clothes before judges in the TomTom room to show their everyday charm and their dress-up glamor.

Judges will base their decision on facial beauty, figure, poise, personality, and photogenic qualities of each candidate.

Names of the judges will be withheld until the night of the contest. They are being engaged by Mrs. Mildred Stringer, director of Student Activities. Pictures in the beauty section of the Apache, according to Mary Ann Seamon, beauty editor. The pictures used in the yearbook will be the same examined by the judges the night of the contest to determine the photogenic qualities of candidates.

Announcement of the most beautiful and the four runners-up will be made Saturday night at the Christmas Dance, Mary Ann said.

Chairmen Selected For Charity Drives

Chairmen for the annual Christmas charity drives were appointed at the last student council meeting.

Kay Raley was made chairman of the fund-raising drive for patients at Rusk State Hospital at Jacksonville. Money collected will be sent to the hospital to be spent for fruit and personal items for the patients, she said.

Glenda Matthews and Kay Rodieck will have charge of this year's White Christmas program for personal gifts for residents at Sunset Home.

Other items on the student council agenda were plans for another "get-acquainted week" to kick off second semester, and pictures of members for the Apache yearbook.

Plans for the second get-acquainted week are only tentative, Student Council President Freddie Head said, and the floor was left open to other suggestions. The motion will probably be put to a vote at the next meeting, Head said.

Students Entertain Coaches, Officials

Members of the Southwest Football Officials Association were entertained by a group of TJC students at the annual banquet in the ballroom of the Carlton Hotel, Dec. 1.

Dianne Jones, a group of Apaches Belles and the dance band, Roland Crawford and Erol Erodogdu were featured entertainers.

Morris Frank, sports columnist of Houston, emceed the program for the approximate 100 coaches and referees.

Cagers To Leave For Tournament

The Apache Cagers will leave this week to attend a tournament in Missouri and make a possible tour of Kentucky.

The players will enter the Moberly Junior College tournament in Missouri Dec. 18-19.

According to Coach Floyd Wagstaff, a tour through Kentucky has been planned, but final arrangements have not been made and the trip is pending.

The boys on the team this year are Bob Caruso, Larry Walker, Mike Useche, Billy Martin, Johnny Rodriguez, Manor Tidmore, Jim Whalen, Oscar Williams, Bub Forman, Mike Lane, John Toole, Raymond Jackson, and Bobby Weddle.

They play host to arch-rival Lon Morris after the Christmas holidays. The Bearcats always prove to be tough competition for the Apaches and a capacity crowd will be expected in Gentry Gym.

The Lon Morris game is always a top event in Apacheland and the Apache Band will be on hand to furnish entertainment for the crowd.

TJC and Lon Morris will play Jan. 6.

The Apaches dropped their second game of the season Saturday night when the Lon Morris five rolled to a 85-77 victory in Jacksonville for their seventh straight win.

Leading the scoring for the Tribe was Mike Useche with 18 points. He was followed by Oscar Williams with 15 points. Mike Lane has 12 points for the night

and Johnny Rodriguez scored 11 hands of the SMU Frosh in Dallas. TJC thumped the Baylor Frosh 60-48 and then won a with a victory over Panola 85-58 85-77 scalp from Allen Academy and then met a 93-76 loss at the, in Gentry Gym.

MOVING APACHE—Driving in hard for a field goal is Mike Useche. The flashy freshman from Houston came into the game after half time to pace the Apaches to a 85-77 win over Allen Academy. Useche dropped in eight field goals and six free throws to be one of the high scorers for the night. The following Saturday in Jacksonville Useche dropped in 18 points to lead the team in scoring in the hard fought defeat at the hands of mighty Lon Morris.

AFTER DAY'S WORK

Herb Richardson Lives On Easy Street

By TRUMAN MIZZLES

He lives on Easy Street—but that is after his day's work is done.

During the day, Herb Richardson assists Floyd Wagstaff with the basketball team in addition to instructing five physical education classes with a total enrollment of 265 students.

Richardson, a former student and athlete at TJC, returned in

the spring of 1957 after an 8-year absence.

After leading the Apaches to the National Tournament in 1948, Richardson, a 6'3" player, was named All-American. The Tribe placed fourth in the tournament.

Richardson was ineligible his sophomore year to play in the National Tournament when the Tribe won first place. All-American basketball players were then

selected by their performance in the national tournament.

After graduating from Tyler, Richardson enrolled at the University of Houston where he completed his degree.

He later was named head basketball coach at Mt. Pleasant High, where he guided his cagers to the regional playoffs in 1952 and to district honors in 1953.

Before coming to TJC as assistant coach, he served as head coach of the high school for three years. He coached the Vandale to the district title in 1954.

But coaching basketball is nothing new in Richardson's family. He has two brothers coaching, one the University of Corpus Christi and the other at Beeville Junior High in Beeville. The latter played on the TJC team that won the National Junior College Championship in 1950.

Prospect for future coaches in Herb Richardson's household are two sons under six years of age who are yet too young to set their goal on the coaching profession.

7 Apaches Named To All-Texas Team

Lonny Money

Seven Apache gridders have recently been named on the All-Texas Junior College team.

Monroe Brewer, David Pitcock, and Leon Fuller were named on the first team.

Richard Staton and Gary Raney were named on the second team.

Larry Corley and Jack Murphy were named to the honorable mention list.

Fuller, running from the right halfback slot, was one of the state's leading ground gainers. He had a total offense of 690 yards.

Brewer and Pitcock, end and guard respectively, were two of the best defensive and offensive men in the state.

Boise Trips Tribe For NJCAA Crown

The undefeated and high-scoring Boise Junior College Broncos were crowned the 1958 National Junior College Champions after their stunning 22-0 conquest of the South's top team, the Tyler Junior College Apaches.

The Thanksgiving Day clash was played before over 3500 fans in Boise, Idaho, and temperature for the day reached a low of 25 degrees.

Boise was ranked as the top team in the North division of junior college circles and the Apaches were Southern Champs. TJC entered the game with a 9-1 seasonal record and a scoring average of 26 points per game. The Broncos were averaging some 43 points per contest and were 9-0 for the year.

In the opening minutes of the game, Boise took a 2-0 lead when the Apaches fumbled in the end zone on the first play from scrimmage. Minutes later, the Broncos had built their lead to 8-0 on a four-yard touchdown run.

Midway in the second quarter, the Apaches found themselves behind 15-0 as the Broncos scored again on another four-yard scamper. Just as the first half came to an end, TJC was on the Boise two-yard stripe.

In the third quarter, Boise iced the game away on a 24-yard

touchdown sprint.

The Apaches threatened late in the third and in the fourth periods, but the undefeated eleven from Idaho dug in to half Apache drives on the four, and 17-yard lines.

The shut-out marked only the second time in history the Apaches have failed to score in a game. The other shut-out was turned in by the Pioneers from Wharton in the early 1950's.

Immediately following the game, the national championship trophy was awarded to the Broncos and the second place trophy was received by the Tribe.

Editor's Note: The following is a record of the Boise trip by one of the Apache players, Lanny Money.

Sitting at the end of the runway waiting for the word to take off, the 22 of the 33-member squad, who had never flown before, sat motionless as the big Braniff Constellation warmed its engines.

Moments later we were airborne and on our way to Boise. As the plane gained altitude, the college campus appeared miniature.

Within a few hours we were over what Ned and Ted Jolly called "God's Country"—Phillips, Texas.

We were flying over the Rocky Mountains and the famous Pikes Peak where everyone was trying to eat dinner. Suddenly the air became rough and food began to roll down the aisles.

Upon reaching Boise, we got our first taste of the cold air. The temperature was 25 degrees with a brisk northern wind blowing.

The team attended a banquet the first night. Members of both teams were presented and introduced.

Then the big day came and the weather was fine except for the temperature, which was around 25 degrees.

Following what was considered to be a hard fought battle, the team went back to the hotel to rest for the long trip back.

At 7 a.m. (Idaho time) the plane was on its way with a load of half-frozen Tylerites.

Campus Basketball Available To Anyone

Intramural basketball is now available for anyone who wants to play, according to James Barnes, faculty sponsor for the student council. The Campus Athletic Committee announced that any club, organization or independent group may field a team.

All interested persons should contact Freddie Head as soon as possible.

Head said "regulation college basketball rules" are to be followed in all games. Teams shall consist of not less than five or more than ten players.

Practice games will be arranged for all teams and a tournament will decide the league winner. A trophy will also be presented to the winning team. Referees will be provided only for the tournament games.

Equipment will consist of shorts, T-shirts and tennis shoes with the basketballs provided by the athletic committee.

Northeastern, Santa Monica To Play In Juco Rose Bowl

Northeastern Oklahoma Junior College and Santa Monica Junior College will play in the Junior Rose Bowl in Pasadena, Calif., Saturday.

The selection was made immediately after Thanksgiving following the National Junior College Athletic Association Championship game in Boise, Idaho.

Santa Monica was selected by the Bowl Committee as the West's representative in the "dream" game.

The Norsemen from Northeastern were then selected as their opponent for the Dec. 13 clash. The Oklahoma team has won 18 straight games over a period of two years.

It was the Norsemen, as TJC students will remember, who knocked the Apaches out of a possible Rose Bowl game last year with a 7-3 victory.

Both Boise and Tyler fans hoped that the winner of the TJC-Boise game would play in the Junior Rose Bowl. Boise fans boosted after the high-scoring Broncos had shut-out the Apaches 22-0 for the NJCAA Championship before Rose Bowl officials.

Their hopes were killed, however, when word reached the Idaho city that Northeastern had been chosen for the bowl berth.

MONROE BREWER

JACK MURPHY

Brewer, Murphy Will Play In Juco All-American Game

Monroe Brewer and Jack Murphy, will represent Tyler in the third annual National Junior College All-American All-Star East vs. West football game to be held in Stockton, Calif.

The pair will board a plane Saturday, Dec. 13 for the week long stay. The game will be held in the Pacific Memorial Stadium Saturday, Dec. 20.

Brewer, a right end for the tribe, was the leading end pass receiver and a stalwart defensive standout. He was a starter for the

Apaches all season and made his presence on the field known at all times.

Murphy, a hard hitting left tackle from Chapel Hill, has been the fellow opening the gaping holes in the defensive lines of the Apache opponents. He also made good use of himself as a defensive lineman. He was a big reason the Apaches held their opponents to a mere 62 points during the regular season.

The Juco All-Stars for the West will be selected by the Jaycee's from the local California teams.

Do You Think for Yourself? (HERE'S A TEST THAT WILL TELL YOU!*)

1. If the salaries were equal, would you rather be a college professor than a movie star?

YES ☐ NO ☐

5. Do you believe it unwise to eat at irregular hours, even though you're hungry?

YES ☐ NO ☐

2. Would you rather borrow money from a bank or institution than from a friend?

YES ☐ NO ☐

6. If you actually saw a "flying saucer" land, would you run for your life?

YES ☐ NO ☐

3. Would you rather have tests sprung on you than be warned about them in advance?

YES ☐ NO ☐

7. Would you be inclined to follow the latest style in clothes regardless of how it looked to you?

YES ☐ NO ☐

4. Do you think it's foolish to daydream?

YES ☐ NO ☐

8. Would you feel badly if you thought nobody at all knew where you were?

YES ☐ NO ☐

9. Are you confused by the clamor of conflicting claims so many filter cigarettes are making these days?

YES ☐ NO ☐

The fact is, thinking men and women don't let themselves get pushed and pulled by all those filter claims. They know what they want in a filter cigarette. And they know only VICEROY gives it to them. A thinking man's filter, a smoking man's taste. Makes sense.

Should you smoke VICEROY? If you think for yourself—chances are you do already!

*If you have answered Yes to two out of the first three questions, and No to five out of the last six... you think for yourself!

Flaherty Contributes Article To Magazine

By DAYLE SMITH

Mrs. Frances Flaherty of the business department became a contributor to the magazine, THE BUSINESS TEACHER, recently when she sold an idea on her teaching methods.

The magazine used her plan for teaching shorthand and filing simultaneously. Mrs. Flaherty said she discussed her procedure in having students file their carbon copies, thus combining the three skills of typing, shorthand, and filing.

James T. Barnes, government and economics instructor, became a member of the Gusher Club recently.

Class Sees, Hears Advertising Made

Today the big problem in advertising is how to reach the modern generation of independent, intelligent buyers, advertising executive W. F. Finn told the Journalism 113 class last week.

People of today want facts, not fancy, Finn, owner of W. M. Finn Associates, continued. They want straight talk, not double talk.

Today's independent buyer does not purchase goods because his parents did, or because everyone else is buying them. He buys certain products because he likes them, and he stops buying them as soon as he finds some that he likes better.

As an example of the varied advertising media, Finn showed the class layouts of newspaper and magazine work and demonstrated how the same advertising was handled in radio and TV. He used a recording for radio demonstration and film showing how his firm uses animated commercials for TV.

"The creative mind covers a far larger area in advertising than ever before," Finn concluded. "It has to. People are demanding more today than ever before."

The Gusher Club is composed of persons who have donated three or more pints of blood within a year to the Stewart Blood Bank in Tyler.

As the Christmas holidays draw near, several faculty members have made plans for their free days.

Hunting, naturally, will be the pastime of I. C. Sanders, physics and mathematics instructor, and Forrest E. Griffin, director of trade and industrial education. Griffin wants to give his hounds a work-out and go quail hunting. Sanders will make use of his deer grounds in East Texas.

Dr. Jeane Browne, public speaking instructor, will spend most of her time with her children and grandchildren. But she also plans to make a quick trip to Mexico City, "just for the fun of it."

Miss Mabel Williams, chairman of mathematics, will spend her Christmas in Pittsburgh with her brother and sister.

Participating in the candle-light service with the choir will be the highlight of Lawrence Birdsong's holidays. After that, he plans to "sit around and do nothing."

Making toys for his children will take a good part of Arthur Pry's time. The other part he will spend with his family and in studying. Pry is director of the Methodist Bible Chair.

Christmas Assembly Is Dec. 19 In Auditorium

The special White Christmas assembly will be held Friday, Dec. 19, at 10:16 in Wise Auditorium.

Each year the student council sponsors a program to buy gifts for the aged residents in Sunset Home. Gifts are collected in the all-college White Christmas assembly Dec. 19.

Plans for this year's student drive differ from those of past years, according to Kay Rodieck, co-chairman of the program.

Kay, Glenda Mathews, and Patty Prestwood will hand out slips of paper to students who wish to purchase personal gifts for the residents.

Students who wish to take part in the Christmas giving should see one of the three girls sometime this week, Kay said.

They will be given slips of paper telling whether the gift is for a man or woman, and what the gift should be, she said.

Students who tell the girls they will buy a gift "should follow through because if they take a slip of paper and then do not buy a gift, somebody at the home will be left out," Kay said.

Students should wrap the gift "as if it were for their mothers" with a removable tag telling the contents of the package, and a separate tag bearing the giver's name, she said. "The 'to' part of the tag should be left blank to be filled in later," Kay explained.

Eddy Fowler, registrar and band director, plans to have a "cool Yule and frantic First." He will have the frantic First in New Orleans with his band students.

Exam Schedule

Tuesday, Jan. 13—8:30-11:30, MWF, 8:25 classes. 12:45-3:45—TT, 825 classes.

Wednesday, Jan. 14—8:30-11:30, MWF, 11:07 classes. 12:45-3:45—TT, 11:07 classes.

Thursday, Jan. 15—8:30-11:30, MWF, 9:19 classes. 12:45-3:45—TT, 9:19 classes.

Friday, Jan. 16—8:30-11:30, daily and MWF, 12:55 classes. 12:45-3:45—TT, 12:01 classes.

Monday, Jan. 19—8:30-11:30, all 1:49 classes. 12:45-3:45, all 2:43 classes.

Tuesday, Jan. 20—8:30-11:30, all 3:37 classes. 12:45-3:45, TT, 12:55 classes.

The week preceding final exams is designated as dead week.

Dean E. M. Potter said all social activities would be suspended during the week. Regular classwork will be as usual but no tests are to be given.

THEY SAID IT COULDN'T BE DONE - BUT TODAY'S L&M GIVES YOU-

THEY SAID IT COULDN'T BE DONE!
Who would believe you could get college credits by watching TV? But television now offers daily classes in atomic physics — and over 300 colleges and universities across the nation are giving credit for TV courses.

Puff by puff **Less tars**
& **More taste**

DON'T SETTLE FOR ONE WITHOUT THE OTHER!

Change to L&M and get 'em both. Such an improved filter and more taste! Better taste than in any other cigarette. Yes, today's L&M combines these two essentials of modern smoking enjoyment — less tars and more taste — in one great cigarette.

LIGHT INTO THAT LIVE MODERN FLAVOR!
